

Keeping Your Organization Compliant and Your Community Safe

By combining the power of Amilia SmartRec and Ankored, your organization can lighten its administrative load while keeping your community safe and well-managed. Together, we make it quick and easy to screen staff, volunteers, and coaches, ensuring the safety of your community.

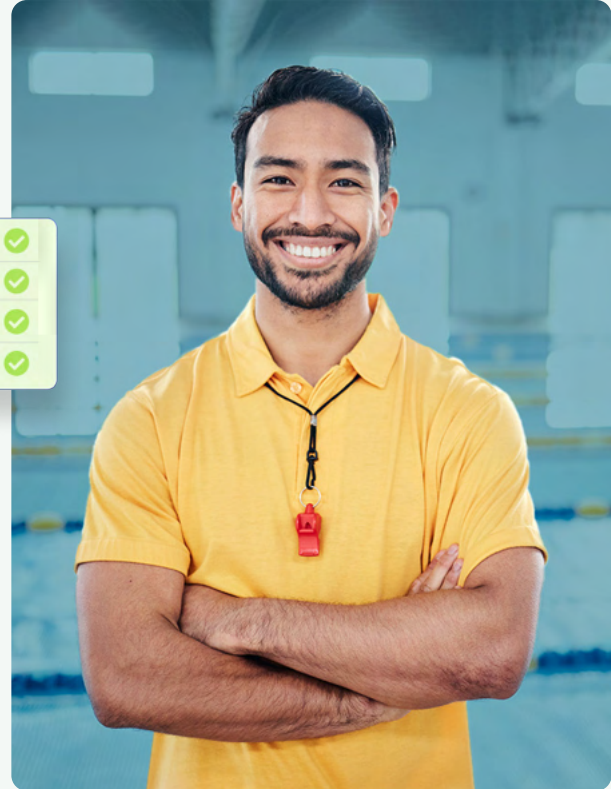

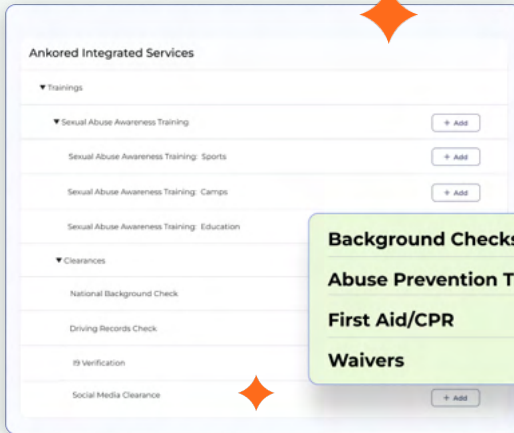

- ✓ Automate compliance reminders, tasks & follow-ups
- ✓ 95% less admin work
- ✓ Real-time tracking & reporting

- ✓ Automate your daily tasks, simplify your processes
- ✓ Sell everything your organization offers online: camps, programs, memberships, merchandises, etc
- ✓ Keep your facilities safe and busy with real-time availability of rentals and private lessons

- ✓ Automate all of the requirements, expiration, renewal and real-time reporting of compliance for each person across your org
- ✓ Ankored integrates and automates the background check process, so it is seamlessly completed for the user with full controls by the facility admin
- ✓ Automate manual tasks such as, alerts, reminders, follow-ups, and paperwork

With this partnership, you can now keep track of vital certifications in real-time, like verifying the current validity of a lifeguard's credentials or ensuring there are no registered sex offenders among members, staff, or volunteers.

amilia

Founded in 2009, Amilia is on a mission to simplify the management of activity-based organizations. From registrations, scheduling, reservations, waitlists, staff, facilities, financial sustainability and more, Amilia is broadening access to technology for over 1,500 organizations. Its robust end-to-end solutions support Parks & Recreation agencies in their aim to engage their local communities.

ANKORED

Ankored simplifies coaching and staff management by automating the entire compliance process, eliminating the need for spreadsheets and paperwork. Designed for busy administrators, Ankored simplifies sending, receiving, and tracking requirements, ensuring every team member meets legal standards. Ankored saves time and reduces human error, allowing you to focus on more important tasks.
